NAMBE 2018 - 34th North American Conference on Molecular Beam Epitaxy

Event - NAMBE 2018 - 34th North American Conference on Molecular Beam Epitaxy ↻

Title	NAMBE 2018 - 34th North American Conference on Molecular Beam Epitaxy
When	So, 30. September 2018 - Fr, 5. Oktober 2018

Description

NAMBE 2018 - 34th North American Conference on Molecular Beam Epitaxy

The **34th North American Conference on Molecular Beam Epitaxy (NAMBE 2018)** is international forum for reporting scientific and technological developments in Molecular Beam Epitaxy research.

The conference showcases important results from fundamental materials and device research, through technological applications, and into high-volume and low-cost production. NAMBE features the presentations of the MBE Innovator Award, the NAMBE Young Investigator Award, and the Best Student Paper awards.

In addition to a diverse technical program, vendors will exhibit the latest equipment available for material growth and characterization. The exhibit will surround the coffee breaks and poster presentations, providing many opportunities for discussions between attendees and vendors.
