iMOC 2012 - International Molded Optics Conference

Event - iMOC 2012 - International Molded Optics Conference ↻

Title	iMOC 2012 - International Molded Optics Conference
When	Do, 22. März 2012 - Fr, 23. März 2012

Description

iMOC 2012 - International Molded Optics Conference

On March 22. and 23. 2012, the Transregional Collaborative Research Center SFB/TR4 "Process Chains for the Replication of Complex Optical Elements" will host the 3rd International Molded Optics Conference iMOC in Bremen, Germany. After two successful conferences in the years 2007 and 2009 the event will cover all fields of replicated optics: optics design, mold making, glass and plastic replication, and measurement techniques. The invited talks will be given by international experts from industry and research as well as from members of SFB/TR4. The concept of this conference provides of a combination of selected comprehensive presentations as well as significant time for discussion with national and international colleagues during the conference, the lab visit and the evening networking dinner.
