LANE 2016

Event - LANE 2016 ↻

Title	LANE 2016
When	Mo, 19. September 2016 - Do, 22. September 2016

Description

9th International Conference on Photonic Technologies LANE 2016

To meet upcoming global challenges, modern research has to act in a tight cooperation between different disciplines. Therefore, LANE 2016 offers a platform for international exchange of ideas, opinions, perspectives, results and solutions concerning photonic technologies.

Especially recent developments in the field of

Laser Material Processing

- Beam sources & components
- Laser beam welding, brazing & soldering
- Laser beam cutting & drilling
- Surface treatment & forming
- Laser assisted processes

including

- Experimental results
- Simulation & modeling
- Sensing & control

are of interest. In order to open up the capability of light, it is essential to look ahead. Against this background LANE 2016 wants to enhance the

Emerging Technologies

- Additive manufacturing
- Precision processing with ultrashort laser pulses
- Fast laser beam manipulation
