2nd 3D Metrology Conference - 3DMC 2017

Event - 2nd 3D Metrology Conference - 3DMC 2017 ↻

Title	2nd 3D Metrology Conference - 3DMC 2017
When	Mo, 9. Oktober 2017 - Mi, 11. Oktober 2017

Description

2nd 3D Metrology Conference - 3DMC 2017

This conference and exhibition is dedicated to the application and development of 3D measurement technology for industrial, scientific and cultural purposes.
The conference aims end users of 3D metrology systems, equipment and software suppliers, service providers, researchers and procurement and quality managers.
These target audiences operate in sectors such as aerospace, automotive, power generation, marine, off-shore, built environment, cultural heritage and virtual reality.
Users and developers from these diverse fields can share their differing experiences, values, and requirements while, at the same time, helping to drive the industry forward.

Topics of conference are:

- Technologies and applications of portable coordinate metrology from meso to large scale
- Fixed 3D metrology on the micro to meso scale
- 3D metrology for advanced manufacturing
- Automation and in-process metrology
- Future industrial requirements and next-generation technologies
- Augmented reality
- Measurement uncertainty and traceability
- Additive manufacturing
- Nondestructive testing
