

8th International Summer School "Trends and New Developments in Laser Technology"

Event - 8th International Summer School "Trends and New Developments in Laser Technology"

Title	8th International Summer School "Trends and New Developments in Laser Technology"
When	Mo, 26. August 2019 - Fr, 30. August 2019

Description

8th International Summer School "Trends and New Developments in Laser Technology"

The Fraunhofer-Institut für Werkstoff- und Strahltechnik IWS Dresden stands for innovations in laser and surface technology. Fraunhofer IWS is organizing the 8th Int. Summer School "Trends and New Developments in Laser Technology" in Dresden.

Event Topics:

- Surface hardening Technologies
- High speed 2D laser cutting
- Laser welding
- Additive manufacturing processes
- Applications of ultra-short pulsed lasers
- Laser process Simulation
- Laser micro/nano structuring
