OSA Laser Congress and Exhibition 2020

Event - OSA Laser Congress and Exhibition 2020 ↻

Title	OSA Laser Congress and Exhibition 2020
When	Di, 13. Oktober 2020 - Sa, 17. Oktober 2020

Description

OSA Laser Congress and Exhibition 2020

The OSA Laser Congress and Exhibition is a event that offers a comprehensive view of the latest advancements in solid state lasers and the applications of laser technologies for industrial products and markets. The Congress is comprised of two meetings: the Advanced Solid State Lasers Conference and the Laser Applications Conference. The program is comprised of a global audience of laser leaders and in-depth, peer-reviewed presentations. Market-focused sessions describe the needed technological and engineering advancements required to move these laser technologies into commercial products..

The 2020 program will highlight new sources, advanced technologies, components and system design to extend the operation and application of solid state lasers. In addition, there will be specific focus on applications for high power lasers and their use in materials processing.

This Congress features an exhibition from companies and institutions that are leading the field in laser applications.

Topics of the Laser Congress are:

- Hear the latest research from an impressive lineup of invited speakers
- See the latest products and innovative solutions at the exhibition
- Present your research to a global audience
- Attend plenary presentations by industry luminaries
- Network with laser professionals from around the world
