International Conference on Metallurgical Coatings and Thin Films (ICMCTF)

Event - International Conference on Metallurgical Coatings and Thin Films (ICMCTF) ↻

Title	International Conference on Metallurgical Coatings and Thin Films (ICMCTF)
When	So, 22. Mai 2022 - Fr, 27. Mai 2022

Description

International Conference on Metallurgical Coatings and Thin Films (ICMCTF)

The International Conference on Metallurgical Coatings and Thin Films (ICMCTF) is a international conference on thin film deposition, characterization, and advanced surface engineering. It provides a forum and networking venue for scientists, engineers, and technologists from academia, government laboratories, and industry.

Attendees from all over the world come to present their findings, exchange ideas, share insights, make new friends, and renew old acquaintances. The Conference typically draws more than 800 attendees, covering more than 50 oral technical sessions and a well-attended Thursday evening poster session.

Technical Symposia
A. Coatings for Use at High Temperatures
B. Hard Coatings and Vapor Deposition Technologies
C. Fundamentals and Technology of Multifunctional Materials and Devices
D. Coatings for Biomedical and Healthcare Applications
E. Tribology and Mechanical Behavior of Coatings and Engineered Surfaces
F. New Horizons in Coatings and Thin Films
G. Surface Engineering – Applied Research and Industrial Applications
H. Advanced Characterization Techniques for Coatings, Thin Films, and Small Volumes
Topical Symposia
TS1. Anti- and De-icing Surface Engineering
TS2. Thin Films on Polymer Substrates: Flexible Electronics and Beyond
TS3. Electrochemical Cells – Hydrogen and Batteries
TS4. Big Data, Machine Learning, Artificial Intelligence and High-throughput Experimental Methods
TS5. A Special Recognition to the Contributions of Joe Greene to the ICMCTF/AVS Community
