International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023

Event - International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023 ↻

Title	International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023
When	So, 21. Mai 2023 - Fr, 26. Mai 2023

Description

International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2023

The International Conference on Metallurgical Coatings and Thin Films (ICMCTF) is a international conference on thin film deposition, characterization, and advanced surface engineering. It provides a forum and networking venue for scientists, engineers, and technologists from academia, government laboratories, and industry.

Attendees from all over the world come to present their findings, exchange ideas, share insights, make new friends, and renew old acquaintances. The Conference typically draws more than 800 attendees, covering more than 50 oral technical sessions and a well-attended Thursday evening poster session.

Technical Symposia

A. Coatings for Use at High Temperatures
B. Hard Coatings and Vapor Deposition Technologies
C. Functional Thin Films and Surfaces
D. Coatings for Biomedical and Healthcare Applications
E. Tribology and Mechanical Behavior of Coatings and Engineered Surfaces
F. New Horizons in Coatings and Thin Films
G. Surface Engineering – Applied Research and Industrial Applications
H. Advanced Characterization Techniques for Coatings, Thin Films, and Small Volumes

Topical Symposia

TS1. Coatings for Energy Storage and Conversion – Batteries and Hydrogen Applications
TS2. Sustainable Surface Solutions, Materials, Processes, and Applications
TS3. Processes of Materials for Printed and Flexible Film Technologies
