UPM - Ultra Precision Manufacturing of Aspheres and Freeforms

Event - UPM - Ultra Precision Manufacturing of Aspheres and Freeforms ↻

Title	UPM - Ultra Precision Manufacturing of Aspheres and Freeforms
When	Di, 8. September 2026 - Mi, 9. September 2026

Description

UPM - Ultra Precision Manufacturing of Aspheres and Freeforms

The 2026 program is organized into four key focus areas:

- **Freeform Optics for novel applications,**
- **Mid-Spatial Frequencies**,
- **Manufacturing**
- **and Characterization of Freeform Surfaces**

The international community will gather once again to exchange valuable insights on the **latest developments** and **research results** in the manufacturing and characterization of aspheres and freeform surfaces.
